A day in the life of

Analyze

Implement

Optimize

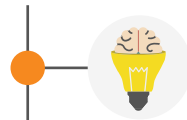

You **implement** new functionalities and fixes with an eye for quality.

Every now and then you assist colleagues throughout the company to advise on advanced technical challenges.

You progress in your career by continuously learning and expanding your skillset.

Together with the team, you **analyze** the extent and impact of changes to the Lansweeper software.

You continuously **optimize** and strive for an efficient functioning of the software.

You work in an agile team and play a key role in the development of new features for a cloud based system.

You participate in code reviews and support new releases.

Hi! My name is [your name here] I'm the new Software Developer

[Paste picture here]

[Paste picture here]
