A day in the life of

Discover

Implement

Optimize

You **implement** low level code that discovers hardware and software.

As a member of an agile research team, you analyze the extent and impact of changes to the Lansweeper software.

You progress in your career by continuously learning and expanding your skillset.

You **discover** new algorithms for detecting network devices and other assets.

You continuously **optimize** and strive for an efficient functioning of our software.

You are part of a company that builds software for thousands IT professionals worldwide.

You work with leading tools and the newest technology.

Hi! My name is [your name here] I'm the new IT Systems Developer

[Paste picture here]

[Paste picture here]
